## **DETAILED ACTION**

### ***Response to Amendment***

1. The Applicant's Amendments and Accompanying Remarks, filed October 8, 2004, have been entered and have been carefully considered. In view of Applicant's amendments to claims 9 and 13, the Examiner withdraws the claim objections as detailed in paragraph 1 of the Office Action dated July 29, 2004. The Examiner acknowledges the submission of Applicant's information disclosure statement on the proper PTO-1449 Form. In view of Applicant's amendment requiring that the reinforcing mat is "solid and continuous" and "without apertures", the Examiner withdraws all previously set forth rejections as detailed in paragraphs 3 – 8 of the Office Action dated July 29, 2004. Despite these advances, the invention as currently claimed is not found to be patentable for reasons herein below.

### ***Claim Rejections - 35 USC § 112***

2. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

3. Claims 1 – 6, 10 – 12 and 14 – 15 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. The phrase "a solid and continuous reinforcing mat without apertures" is new matter, because this negative limitation is not literally supported by the specification. *Ex Parte*

Art Unit: 1771

*Grasselli*, 231 USPQ 393. There is no mention that the reinforcing mat is “solid and continuous” or “without apertures” in the specification.

### ***Response to Arguments***

4. Applicant's arguments with respect to claims 1 – 6, 10 – 12 and 14 – 15 have been considered but are moot in view of the new ground(s) of rejection.

### ***Conclusion***

5. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
